## ***MPSI the missing***

*April 11th, 2020 - The author here repeats a valid idea of Bonney and himself that a heterozygote for a homozygously damaging and mon allele such as the haemoglobin S HbS allele might tend to marry more wives than would a normal homozygote in an attempt to find a homozygously normal wife If this were so and if it led to extra children it could explain a part of the high frequency of HbS in Ghana'*
